CollegiateParent Overview

Connecting Brands with Parents of College Students for over 10 Years

CollegiateParent.com is a **widely trusted website** that connects your brand with parents of college students across the country.

In 2018, parents of college students spent almost $1,000 per student during the back-to-school shopping season.*

The right content mix is important. In a college parent’s media-saturated life, it takes a mix of two things to win their attention and trust:

1. Providing relevant, reliable information to parents looking to support their student.

**Retargeting**

We can deliver ads to parents and students on campus, in class, and where they live and socialize. Because we target all traffic coming from these areas, we can serve your ads across thousands of websites and apps that they are surfing in real time. This takes the guesswork out of having to pick and choose what individual sites to use.

**How It Works**

1. Tell us who you want to reach (e.g., lists of colleges, ZIP codes, market areas, competitor locations, and interest categories).

2. Tell us your weekly ad budget and when you want to run your ads.

3. We take your targeting and campaign objectives to build a strategy that will help you achieve your advertising goals.

4. Provide us with your ad creative or third-party ad tags. We’ll start serving your ads and optimizing your spend towards the goals you have set.
